THE WORLD OVER

CAMPBELL WILL RACE, DAYTONA

PRINCE DECLINES MEDAL OFFER

MILLIONS FACE DROUTH, CHINA

DAYTONA BEACH, Fla.—Sir Malcolm Campbell's Blenheim, the fastest car on earth, likely will thunder north over the sands of Daytona Beach next winter. In a telegram received here by city officials, Campbell, who more than a year ago raised his only record to 272 miles an hour, formally accepted an invitation to race his car on the beach tomorrow during the winter. He hopes to boost the mark to 300 miles an hour.

HARRISBURG, France—The Prince of Wales has refused a life-saving medal offered him by the French government in recognition of heroism, when he aided in saving a boy from drowning in a swimming pool here a week ago. Although he has received hundreds of laudatory letters and telegrams of congratulation, the prince has declined the throne modestly declined to accept France's offer of a gold medal.

A long document in parchment from Paris asked him to accept the decoration and praised him for his heroism in the youth, who was caught by a huge wave and lifted from a beach into a pool.

SIAMHAI—Five million persons are in danger of their lives from famine in various parts of China, reports arriving here indicated, as almost unprecedented drouth conditions in some sections and overland routes and floods in other struck terror in the peasant populations. Prices of grain and rice have reached heights unknown for three years.

Brigandage in life. Famine-stricken peasants are moving in large bands and falling upon villages, ransacking them for every available scrap of food, then leaving the inhabitants to die of hunger.

From Hankow it was reported that wolves and tigers, near starvation from the drouth, attacked and devoured ten persons.

FREISEN-NASH

A very pretty wedding was solemnized at Christ Church, Carbon, on Sunday August 12th at 3 p.m., by Rev. J.R. Davies, when Winifred Daphne, eldest daughter of Mr. and Mrs. C.H. Nash of Carbon, became the bride of Mr. Cornelius Lawrence Freisen, also of Carbon. The bride, who was given in marriage by her father, wore a white dotted net dress trimmed with frills around the cape and skirt. Her veil was fastened about the head with orange blossoms and formed a train. The bride carried a bouquet of pink roses and lilies of the valley. Miss Adelaide Stephens of Calgary, and Miss Kathleen Watkins of Carbon were bridesmaids, the former wearing a gown of light blue organdie with large picture hat to match and carrying a bouquet of yellow gladioli, while the latter wore a yellow dotted net dress and hat to match and she carried a bouquet of pink roses. The groom was supported by his brother, William.

During the spring of the registrar Mr. Evans sang "Gull", accompanied at the organ by Mrs. McInnis. The church was tastefully decorated for the occasion, and guests were ushered to their seats by Harry Paxon and Norman Nash.

From 4 to 6 p.m. a reception was held at the home of Mr. and Mrs. C.H. Nash and about 100 guests were present from all parts of the district. Mr. and Mrs. Freisen were the recipients of many useful and beautiful gifts and after spending a week's honeymoon at Banff will return to Carbon to reside.

A FORTUNE MAY BE MYTHICAL

JUNEAU, Alaska—Gold was found on the mysterious treasure-hill found but salvagers can tell whether it is "fool's gold" or a fortune. It cost over \$200,000 and two years time to drag the ship from Duvet Jones' locker, where it sank in 1913 with a passenger list of wealthy Alaskan miners, to the beach at Admiralty Island—but the \$3,000,000 fortune aboard her might have been in bank drafts instead of gold nuggets.

The ship was guarded closely as workmen removed the mounds of drift, some of baronies, the skeletal bones of 72 dead men who drowned when the island hit an iceberg.

EDMONTON ALBERTA

U.F.A. Asks Douglas To Submit Plan For Alberta

EDMONTON—Meeting last Wednesday in a pre-conference session, the general executive of the United Farmers of Alberta decided to invite Major C.H. Douglas, originator and chief exponent of the "Douglas System" of social credit to submit a plan of his system for study by the U.F.A. organization.

Major Douglas, on the invitation of the legislature, appeared on two separate days during the last session of the House and gave an exposition of his scheme. He was asked if his plan was feasible and "suitable for Alberta" and he replied that it was not. Nevertheless, there are many members of the U.F.A. organization interested in the scheme and feel that if some variation of the plan can be worked and feel that if it is at all workable for this province, it should be at least studied.

DEPARTMENT OF AGRICULTURE CROP REPORT

While the hope of heavy yield of wheat in Alberta this season must definitely be abandoned, there is still the certain prospect of a total provincial yield greater than that of 1933, states the fortnightly crop report of the department of agriculture. Harvesting is not yet sufficiently advanced to show any definite estimate of grain yields.

Harvesting of wheat is now well under way in southern Alberta and has commenced in many localities in central Alberta. In the north-central and northern districts, where the weather has been so far from ideal for the most part, and where rains have been frequent, harvesting will not yet sufficiently advanced to show any definite estimate of grain yields.

Over a considerable section of the province grain crops have suffered further deterioration in the past fortnight due to the continuance of hot dry weather. This applies to southern and southeastern districts as well as to a fairly large area across the central portion of the province. In the north-central and northern areas further rains have fallen and the need is now for warm sunny weather to bring the grain to maturity and enable harvesting to be completed to escape the possibility of serious autumn frosts.

In the south-eastern districts, chiefly in the Goose Lake territory, the grain crops will be very short, returning in some localities little more than seed, while in others cattle have already been turned into the fields. There are still some fair crops on the summer-fallow land in these districts, however.

RUSSIAN WHEAT CROP SMALLER

The government of Soviet Russia has reduced the figures on its plan of deliveries of cereals by Soviet farmers to 35 per cent below the plan for deliveries from the 1932 crop. This sets deliveries for the country as a whole. The United States Department of Agriculture suggests that this may indicate a smaller grain crop this year in the Soviet Union. Among the important regions where deliveries were decreased are: Ukraine 26 per cent; North Caucasus 24 per cent; Crimea 14 per cent; Lower Volga 14 per cent; Bashkiria and Tatarstan 27 per cent.

The grain delivery tax of the collectivized and individual peasants is to remain unchanged and to be fully collected with payment of loans in kind and the payment in kind to the machinery and tractor stations. The Central Committee of the Communist Party warns against making the unfavorable wet weather conditions a reason for non-fulfillment of the obligations of the farmers to the state.

Technical School Has Good Season

The provincial technical school at Calgary enjoyed a successful season. A total of 731 students being registered the last term. In addition 445 of those attended 23 classes offered, being aided instruction by 36 instructors, visiting without salary. The school is now conducting a course in aeronautics, the only course of its kind given in Canada. It is planned during the coming term to design and build a complete aeroplane.

NATIONALIZATION OF SILVER BY UNITED STATES GOVT.

WASHINGTON—President Roosevelt on August 9th nationalized the United States' store of silver and called for its delivery to the United States mints within 90 days at a price of \$90.00 cents an ounce.

The action was taken by executive order under authority granted by Congress in the Silver Purchase Act passed last session.

"I am very much relieved that it's done," was the secretary's only comment.

Nationalization of silver followed by a little more than a year somewhat similar action with regard to gold, although in the case of silver the government will not withdraw coins from circulation.

Newly-mined silver, which is regularly being purchased at 44¢ cents an ounce under the president's proclamation of December 21, 1932, is exempt from the order and will be bought as freetrade.

ALBERTA NEWS

Agricultural School to Re-open

Announcement is made by Hon. P. J. A. S. Minister of agriculture, that the school of agriculture at Vermilion will be re-opened this fall, provided the registration of students is sufficient to warrant it. The school at Oda will continue to operate.

Junior Club Field Days

Field days for members of Junior farmer clubs have been the order recently, these having been at the Vermilion school of agriculture, Lacombe experimental farm and the University farm at Edmonton. At all these instructional work was given the Junior members who attended in large numbers. In grain and live stock work.

Cream Deliveries on Increase

Deliveries of cream to the creameries of the province continue to show a substantial increase over last year. Nearly 14 million pounds of butterfat have been received up to the end of July, compared with 12,500,000 for the same period of last year.

U.S. Market for Alberta Coal

The recent action of the U.S. government in deciding to admit Canadian coal without duty, will, it is believed, bring new business to Alberta coal mines, for both domestic and steam coal. The Alberta government trade commissioner has recently been advised of the new arrangement.

Bonus for Sugar Beets

Farmers growing sugar beets under contract with the Raymond sugar factory have recently been paid a bonus on their 1932 crop which brings the total price per ton paid them to \$1.65, compared with the price of \$1.38 received for the 1932 crop. A further bonus is possible later in the fall.

New Mountain Highway

Announcement of the intention of the Dominion government is received with the completion of the new mountain highway connecting Banff and Jasper national parks in the Alberta Rockies, is received by Alberta people with considerable pleasure. With the announcement comes the statement that labour will be recruited from unemployed ranks at regular rates of wages, which is believed will assist in relieving the unemployment situation. The new highway, which may be completed within three years, will be one of the finest scenic routes in the world. Some 40 miles have already been completed on the Jasper end, and 17 miles on the Banff end of the route.

The Misses Viola and Ruby Embury have moved into Neil Cunningham's home.

Carl Moorhouse of the Red Arrow Transit, has purchased a new International truck.

FRED SCHELL HAULS FIRST LOAD OF 1934 WHEAT

On Friday, August 10th, Fred Schell, who farms about five miles south of Carbon, hauled the first load of new wheat to town.

The wheat, which was hauled to the Midland and Pacific elevator, was graded No. 1 hard and was threshed from seedbed grain.

This is the earliest that new grain has been threshed in the Carbon district for some years, although the estimated 1932 crop is by no means general.

SAYS UNITED STATES WILL IMPORT CANADIAN WHEAT

Col. G. O. Porter, a veteran Western Canadian newspaper man, reports in one of his press despatches recently that Bruce McLean, old time Winnipeg grain trader, is of the opinion that United States will import 100,000,000 bushels of wheat during the next 12 months. Mr. McLean further thinks that Canada should make wheat to market this fall but should sell only for free immediate requirements and hold the balance on their farm. He believes wheat will be a dollar a bushel before July 1, 1935. Mr. McLean has recently received Western Canadian news from the 1932 crop.

Just what Mr. McLean thinks United States will have to import 100,000,000 bushels of Canadian wheat within the next 12 months is not known. That country's harvest from the 1932 crop was around 260,000,000 bushels and the crop this year around 480,000,000 bushels, giving a total supply of 740,000,000 bushels.

EX-MOUNTAIN, LINKED WITH ALBERTA CRIME, WILL CLAIM FORTUNE

TORONTO—Convicted of the murder of John G. Coward, of Carbon, Alberta, sentenced to be hanged, finally acquitted, later convicted of arson and sentenced to life imprisonment, which, under appeal, was reduced to ten years, John Francis Gallagher, a former member of the Royal North West Mounted Police, who has been living under an assumed name in Toronto for the past three months, on Tuesday of last week left for England to claim \$500,000, which his aunt has promised him if he settles down and marries before December 25, 1935.

CARBON BOY IS ALBERTA CHAMPION

ROBERT WISE AGAIN VICTORIOUS

Robert and Harold Wise of Carbon competed in the Alberta Lawn Tennis Championships in Edmonton last week and again Robert won the Boy's championship of the Province of Alberta.

In the Boy's Championship the results were as follows:
First—Phil N. Kicks of Kindersley, defeated W. Wise of Carbon, 6-4, 6-3.
Second—W. Wise of Carbon, defeated R. Thomas, Edmonton, 6-3, 6-0.
Third—R. Wise of Carbon, defeated K. Hicks 6-4, 6-0.

Robert Wise has won the Boy's Championship for the second year in succession, having won it in Calgary last year. He also competed in the Junior Men's Championship over to 18 years of age and won it of Western Canada. He was successful in reaching the final. He drew a bye in the first round, defeated Thomas, Edmonton. In the next round, with the quarter-final from F. Hall, Edmonton and in the semi-final from L. Lemkau, Edmonton, losing the final to Bill Stark of Calgary. Bill Stark is the present Senior champion of Western Canada. It was seen that Wise was being tested very strenuously.

Robert Wise is only 14 years of age and will be able to assist compete in the Boys' Championship, a few which will be held in Calgary next year. At the present time young Wise is much the strongest boy tennis player in the Province of Alberta.

T. G. Johnson sold his horse, next to the Gospel Hall, to Leslie Labatt.

Mr. and Mrs. Geo. Wise and two boys, and W.A. Braisher moved to Edmonton last week to attend the Alberta Lawn Tennis Championships.

A miscellaneous address for Duhon Nash was held on Wednesday, August 8th at the home of Mrs. C. Oshland and sponsored by Mrs. C. Oshland and Mrs. M. P. Oshland. Mrs. Edwards won the prize for the first contest and Mrs. Terrance and Mrs. Fairbank the prize for the best bridge game. A car laden with muck lifts was presented to the bride, which created much excitement when each passed on being opened contained a broken dish or worn out linen. Immediately after wards Mrs. C. Oshland presented Miss Nash with a beautiful lamp on behalf of the guests. A thirty lunch served Fred Cooke, organizer of the Alberta Division.

At the houses brought the gathering Division.

THEY ALL DO IT

A hen is not supposed to have much common sense or tact.

Yet every time she lays an egg she catches forth the fact.

The watchdog barks, and yowls, and howls, and does and pleases you.

The mouse squeaks his tail and squeals, plays around and nibbles you.

And even serpents know enough to hiss before they sting.

But man, the greatest wonderpiece that Nature could devise,

Will often stop and hesitate before he'll advertise.

prepar noticed the branch of the bank of Montreal before being transferred to Carbon.

Wood was educated in Carbon last week that Harry Deane of Cloverdale B. C. had passed away at Vancouver on Wednesday, August 8th. Deane was a former resident of Carbon and was a brother to Wm. Deane of this district. Mrs. W. Deane left last Thursday to attend the funeral.

Rain visited the district the first part of the week and harvesting has been held up for a few days. The damp weather has started the wheat coming again and will delay harvest. Some of the more advanced crops are being cut and in some instances farmers who had in only a small acreage of wheat have completed their cutting. Carbon crops this year will turn out well and will be no exception, if not better, on the average than any in southern Alberta. Statistics at the critical time also set the wheat heads and dry weather now is hastening the growth, which should grade very high at an average yield of around 25 bushels to the acre.

Eight days only after they had attended the Grand National at London, England, and after a week of Toronto, Ontario, a number of Torontonians found a hole in their time for the Motor collection. The collection was made possible by a few copies of the Bulletin of Richmond under her new committee, Captain Arthur Holwell.

Arrangement is made by the Canadian Pacific Railway that it will have several shipments of freight six feet thick and its full load of cars subject to delay at Port McNicoll, pending the firm orders from Canadian Pacific customers will be in service on the Great Lakes during the coming season.
